

## ARE YOU .....

- Looking for new Employees?
- Spending too much money in “traditional” Classified Advertising and getting fewer results?
- Receiving the same resumes and responses with your current Employment Seeking Ads?

## THEN IT'S TIME TO TRY MEGA ROCK'S “RADIO CLASSIF-ADS!”

## WE WILL ...

- Customize an effective Radio Campaign that will target people at home, at work, at leisure and in the car.
- Feature your business on the “Help Wanted” page on our website- [www.megarock.fm](http://www.megarock.fm)
- Get your message out to thousands of listeners who may not be currently in the “job market” but are stimulated by your commercials and decide to apply.

“ I was extremely pleased with the recent ad campaign that I ran on Mega Rock! I used the exact same commercial on four different radio stations in my market and did not get **any results**. The same “help wanted” ad on Mega Rock resulted in 8 inquiries. In fact, we hired one driver on the spot when he came to our Open House in Corsica. The next time I need to hire new employees, I’ll run on Mega Rock first!”- *Oscar Meyer, Evans Trucking, Inc.- Butler, IN.*
