- ✓ **Every business is unique...** and faces different challenges in the marketplace.
- ✓ **Every business has a marketing problem ...** a less than ideal location, a misunderstood service/product line, an ill-defined position in the market. Millions of dollars in business flow through our multi-county marketplace every year—is *your* business getting the market share it should? Or could?
- ✓ **Every business is looking for marketing solutions...** and solutions start by asking questions, targeting your optimum audience(s), discussing the benefits you're looking for, the objectives you want to meet, looking hard at your competition, positioning your business to grow.
- ✓ **Any business *brands* with consistency, frequency and an effective message...** every product or service in every business affords a window of opportunity - this window can be a few days, months or longer. But the prospective purchaser must *know* you before they *need* you. Radio's intrusive nature reaches future customers throughout the window and will let them know who your are and what you can do for them before price ever becomes an issue. How? With consistency, frequent repeating of your message and a compelling creative message.
- ✓ **Every business should have a marketing plan...** and our goal is to come back to you with a fully developed long-range plan, tailor-made to achieve your objectives, deliver benefits, get you results. Your Y102 Marketing Specialist believes in accountability and uses the considerable experience and resources at Y102 to do exactly that.
